

NOTES:

- 1) Use either ±10V from Pandora PID project or the 24VDC wall wart but not both.
- 2) Supplies ±10V with no common is intentional, coax shield does this.
- 3) REF: with +24.0V measured 17mA and ±11V ±0.15V.

B	Feb 2012	A.Stummer	Spun, added 1cm c-c spacing
