

Name: _____ Date & Time of Practical: _____.

Student Number: _____ Name of your TA1: _____.

Pre-Practical Question Sheet 5

Instructions: Please print this page, fill out brief answers to the questions below, and turn in the sheet to the box at the front when you arrive to Practicals this week. (Alternatively, you may write out the answers on a blank piece of paper. In this case, be sure to put your name, date & time of Practical at the top, and clearly number each question you are answering.)

1. In late November 2018, Toronto and many other parts of Eastern Canada experienced record-breaking cold temperatures. Can we conclude from this datum that global warming does not exist? Why or why not?

2. In python we often start our code with lines like the following:

```
from scipy import *
```

What does the * character mean in this case?

3. In python, what would the code `print(var([1,1,1]))` display?

4. You have around a million dollars. You give your friend 5 cents. How much money do you have left?

Mark out of 2:
