

The 2013 Noble Lectures

Dr. Paul Wennberg
California Institute of Technology

A Special Colloquium

Tuesday, April, 23, 2013

*"Five tons a year:
Carbon dioxide in the Anthropocene"*

*4:10 pm, Bahen Centre 1180
Reception to follow in Physics, Room MP110*

Wednesday April 24, 11:00 am, KP108

Column observations of greenhouse gases using Fourier transform spectrometers

Thursday April 25, 11:00 am, KP108

Large-scale eddy-covariance measurements of the north-south flux of CO₂

Friday April 26, 11:00 am, KP108

On the oxidation of volatile organic compounds emitted from the biosphere

These lectures are intended for a wide audience. All lectures will be one hour. The morning lectures will take place in the Koffler Institute, room KP108. Refreshments will be served half an hour prior to the start of each lecture in the lobby, just outside KP108.

*Hosted by the Atmospheric Physics Group,
with the generous support of the Reginald and Muriel Noble Fund.*
