

## Tri-Campus Caretaking Strategy for Return to the University

May 2020

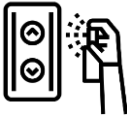

The University of Toronto is committed first and foremost to the health and safety of our entire community.

A crucial element in maintaining a safe and healthy environment is the cleaning and disinfection of shared spaces. We will support the gradual and safe return of activities to campus by ramping up caretaking services as well as providing readily available supplies in high-traffic areas for our community to use.

### Principles that guided the development of this strategy

- ✓ Adherence to relevant public health [guidelines](#) including continuing to use cleaning products and disinfectants that are approved by Health Canada for use against COVID-19
- ✓ Alignment with the University's Environmental Health and Safety guidelines
- ✓ Consistency of strategy across all U of T buildings and campuses

### Supporting the health and safety of our community

<p>Increased cleaning and additional disinfection by caretaking staff</p> 	<p>Providing sanitizing supplies in high-traffic areas</p> 
<ul style="list-style-type: none"> <li>• <b>Daily (Mon to Fri) routine cleaning</b> of classrooms, libraries and public spaces such as lobbies and washrooms by caretaking staff</li> <li>• <b>Increased cleaning and disinfection - twice daily (Mon to Fri) - of high-touch surfaces</b> that have frequent contact with hands such as door handles, washroom fixtures, handrails and elevator buttons</li> <li>• <b>Weekend caretaking service</b> can be requested through the usual, pre-COVID process</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Readily available disinfectant wipes and hand sanitizer for many high-traffic shared spaces</b> to enable our community members to disinfect their hands and high-touch surfaces before or after use</li> </ul>
