

# Reopening and Operation of the Physics Library

## Purpose

The purpose of this document is to outline the procedures for the opening and operation of the Physics Library. The Physics Library provides access to the Physics Library Collection, including text books and other reference materials for short-term loan, assistance with loans from other libraries, and research and reference support. The Physics Library may only be open when staff are present to ensure the security of the collection. Having staff on-site will allow limited access to course reserve items for short-term loans, an important service for students. The Library also provides study space for students, particularly for commuting students who need study space between in-person classes. Department members who have key may enter the library after hours, following existing rules for accessing the collection.

## Regular Review

This plan will be reviewed regularly and revised if changing circumstances warrant. This will be done in compliance with University policy and recommendations from Environmental Health & Safety (EHS).

## Principles

- Paramount will be the health, safety and protection of staff and all clients including faculty, students, post-doctoral fellows and staff.
- Applicable EHS, FAS and Departmental directives and guidelines will guide the restart and ongoing operations.
- Planning and implementation will follow the principles described in this document and revisions.
- The Department will provide reasonable accommodation to staff members for personal circumstances while balancing the needs of the University and its members and adhering to agreements, policies, procedures, guidance documents and legislation.
- Public parts of the building, including classrooms and lecture halls will have specific requirements for teaching and not covered in this document, as will teaching and research labs. Library staff will be required to follow any policies or procedures applicable when in those areas. This document will focus on Library work areas.

## General Preparation for Reopening

- Appropriate signs and notices will be posted at the Library entrance, including a COVID hygiene poster, UCheck requirements, and any special covid19 procedures for Library operations.
- Study areas will be prepared to insure consistency with physical distancing and capacity limits.
- The area behind the service counter will be strictly limited to staff only, and marked with a stanchion/belt system to provide 2 m spacing from staff to Library patrons.
- Hand sanitizer will be available on the service counter, and in other parts of the Library.
- It will be the responsibility of the Library staff to ensure that the signs are in good condition, barriers are in place and for maintaining supplies. These will be inspected at least daily and more frequently as required.

#### REOPENING AND OPERATION OF THE PHYSICS LIBRARY

- Non-medical face masks must be used as directed by [University Policy](#). They should be worn in all common-use indoor University spaces (e.g. corridors, washrooms, stairwells, classrooms), and at all times by all Library Patrons. Masks will be made available if required. Library staff may work without masks in the service area only when physical distancing is provided to other workers and patrons.
- If necessary to manage traffic in Library areas, a reservation system may be setup for the Library staff by email or using Microsoft Booking. This information will be circulated to the Department.
- All non-essential items will be removed from the service counter.

### General Procedures

- Staff must comply with UCheck requirements, both for confirmation of vaccination status and self-assessment. If questions arise, staff should follow the direction available through UCheck or contact U of T's Occupational Health Nurse by email at <mailto:ehs.occhealth@utoronto.ca>.
- Staff member's schedules are to be established so that only one staff member is present whenever possible.
  - Areas of common contact are to be sanitized at the beginning and end of each shift. This includes desks, counters & benchtops, phones, keyboards, tools, etc. Any materials, equipment etc. entering or leaving the staff area must be cleaned.
  - Any equipment or touch-surfaces that are used by both patrons and staff must be sanitized after each use.
- If more than one staff member is present, all are to practice physical distancing at all times, keeping a minimum of two meters apart. They should work apart as much as possible.
- Staff will eat at their desks; no common lunch room will be provided, and there will be no access to refrigerators, microwave ovens, etc.
- Hands should be washed with soap and water frequently, especially before entering the workspace, and sanitized after contacting materials and surfaces others may have handled.
- Staff are encouraged to report hazards and concerns to the appropriate supervisor.
- All relevant [COVID-19 procedures](#) should be reviewed and followed.
- All other safety protocol & procedures for workplace hazards are to be followed.

### Standard Operating Procedures

- The Library will be open on Mondays through Friday from 9:30 am to 4:30 pm.
- Study space will be made available for up to 25 students, with physical distancing.
- The collection, circulation and reference areas will be limited to 1 patron at a time.
- Wherever possible, anyone wishing to access the collection or obtain help from staff will make advance arrangements by email, or by using a reservation system.
- Masks should be used by all patrons at all times and by staff when patrons are in the library, and when handling any items (e.g. books) that may be handled by patrons.
- Returned books will be returned only through book return slots (one outside the library, and one in the circulation area). They will remain there until processed at the end-of-day, with staff being sure to sanitize their hands after processing. Gloves will be provided to staff for this task. The returned books will be stored in isolation for a minimum of 3 days before being made available for circulation.
- Short-term loan books will be made available for loan on Fridays and must be returned on Monday.

REOPENING AND OPERATION OF THE PHYSICS LIBRARY

- Clients will be asked to leave if they deliberately behave in a manner not consistent with this document. Anyone refusing to comply with these guidelines will not be allowed access to Library services and repeated behaviour will be reported to supervisors or an appropriate authority.
- Clients may have to wait in a safe area, asked to return later or make an appointment if in the opinion of the Library staff, physical distancing will be compromised.
- Clients should bring their own writing instruments (e.g. pens) for any required writing. Spare pens will be available, subject to sanitization and/or a 72 hour isolation period.
- Where possible, office machines will only be used by Library staff.
- Where possible, all office supplies, equipment, etc. must be cleaned after use by a Library staff member before storage or reuse.
