

How to change the world

It starts with inspiring new ways of thinking. Connecting exceptional minds — across borders and disciplines — to solve complex challenges. That is what CIFAR has been doing for over 30 years. Our programs have transformed our understanding of disease, early child development, technology, society and more. We are pleased to announce four new research programs that build on that legacy. They connect research leaders from over 30 institutions in 10 countries to collaborate on important questions — and to help change the world for the better.

What can the structure of living systems tell us about life and disease?

PROGRAM DIRECTED BY
CIFAR Senior Fellows Oliver Ernst (University of Toronto) & R.J. Dwayne Miller (Max Planck Institute and University of Toronto)

What makes the human brain conscious?

PROGRAM DIRECTED BY
CIFAR Senior Fellows Adrian Owen & Melvyn Goodale (Western University)

How can we learn from nature to harvest energy from the sun?

PROGRAM DIRECTED BY
CIFAR Senior Fellow Edward Sargent (University of Toronto)

How does the microbiome affect human development and society?

PROGRAM DIRECTED BY
CIFAR Senior Fellows Brett Finlay (University of British Columbia) & Janet Rossant (The Hospital for Sick Children)

Help us change the world. Join our community at www.cifar.ca

CIFAR IS GRATEFUL TO ITS PARTNERS AND DONORS FOR HELPING TO CONNECT THE BEST MINDS FOR A BETTER WORLD.

PATRON

His Excellency the Right Honourable
David Johnston, Governor General of Canada
