

DEPARTMENTAL PHD EXAMINATION REPORT

DEPARTMENTAL ORAL OF

DATE:

CONVENOR:

SUPERVISOR:

1. Does the committee recommend that the candidate go forward to the SGS oral?
2. If yes, are there any changes recommended in the thesis before submission to SGS? Is the thesis too long? The maximum length (not counting appendices) is 45000 words (~150 pages). If yes, what parts can be shortened or removed?
3. The candidate is ready to proceed to the SGS Oral in eight weeks.
4. Who will be the external examiner? *(It is strongly preferred that the External Examiner be able to attend the SGS Oral, since otherwise 3 additional members may be required.)* Please give their name, affiliation, and contact information.
5. Has a specific date for the SGS oral already been arranged between the supervisor and the external examiner? If so, when?

Note: The quorum for an SGS Oral is 4 examiners, and 2 must not be members of the Supervisory Committee. Sometimes an examiner unexpectedly misses the SGS Oral, so it is recommended that 5 examiners be appointed, 3 of whom are not members of the Supervisory Committee.

6. Any recommendations for two additional examiners from Physics (or a cognate Department) and should one PhD Committee member be dropped?
