

UNIVERSITY OF TORONTO – DEPARTMENT OF PHYSICS
PhD supervisory committee meeting report

Meeting Date:

Student

Degree program

Enrolment date (PhD program)

Supervisor

Committee member

Committee member

Committee Report

1. Thesis **topic**:

2. What concrete progress has been **made in the last year**? Which aspects of the research plan described in the previous supervisory committee meeting were implemented, and which were not?

3. Overall **assessment of progress** towards PhD, since last meeting:

Comment on strengths and weaknesses measured against expectations; identify any external factors that have impeded progress; and summarize.

4. What is the **research plan** for the coming year?

5. **Viability**: comment on the leading risks and/or the most critical unknowns. Are the necessary resources (including financial support: for example, 2025/26 RA:\$13,232 for 2nd-4th yr and \$19,432 for 5th yr) available? If not, specify what is lacking.

6. Has the candidate done enough research to **begin writing** up? If not, what is the expected timeline for completion of all thesis work?

Recommendation

After meeting with the student and assessing research progress, we recommend

that the student **continue** in the PhD program
with the next committee meeting to be held by

that the student proceed in the PhD program, but that the following conditions should be met
by at which time another PhD committee meeting should be held.
Conditions:

that the student not proceed in the PhD program.
