

Rotary switch is crap. Replace with
real one such as 71BDF36-01-1-AJN.

This page is an add-on because there is so much space left on the board and I need this amplifier for the Teledyne-LeCroy WS3054 scope's Wave Source. The latter is only $\pm 3\text{V}$ (no load) but sometimes I need up to $\pm 10\text{V}$.
