

## PHY293 Suggested Problems #6

November 20, 2017

The final quiz for this term test will include a problem similar to those **from Chapter 3** found on this suggested sets of problems – ie. our discussion of the quantum behaviour of photons. The last few problems here (those from Chapter 4) we will only cover the material necessary to address these during class this week. So questions like them won't appear on the last quiz, but they could appear on the final exam.

- 1) Harris 3.11
- 2) Harris 3.23
- 3) Harris 3.29
- 4) Harris 3.31
- 5) Harris 3.34
- 6) Harris 3.41
- 7) Harris 4.11
- 8) Harris 4.21
- 9) Harris 4.27
